Summer Research Internships

Objective

To help undergraduates make an informed decision whether to pursue a career in industry or one in academia. Summer Research Internship (SRI) program is a step towards this.

To expose students to the research culture.

Scope

Intern must learn to explore in an independent environment how to approach

- o Theoretical research
- o Experimental research
- o Conceptual development of some product

Duration

DA-IICT requires that the duration of Summer Research Internship is of 6-8 weeks. It may start in the 1st week of May 2005 but must end by 31st July 2005.

Expectation from the Intern

- o Identifies a research area
- o Carries out detailed literature review
- o Analyzes current problems of that area and identify gaps
- o Explores possible approaches to fill these gaps
- o Submits a weekly one page report to the Advisor/Mentor indicating the sequential development of work
- o Submits a Research Report (13-15 pages) at the end to Advisor/Mentor.
- o Identifies a possible B Tech project at the end of the internship.

Expectation from the Institute/Organization

- o Assign an Advisor/Mentor for the Intern
- o Inform the Coordinator – Summer Research Internship course about Intern's deliverables, start and end dates of internship, location of work *etc.*
- o Identify/Define the area/problem on which Intern is expected to work
- o Provide logistic and academic/intellectual support to the Intern

- o Send feedback (form will be sent separately to Adviser/Mentor during the course) to the Coordinator – Summer Research Internship
- o Send the Research Report submitted by the Intern to the Coordinator – Summer Research Internship at the end
- o Assist DA-IICT in evaluation of Intern after completion of course

Evaluation

- o On technical/scientific content of the Research Report. This shall be done at DA-IICT.
- o On research potential of the Intern. For this DA-IICT expects a feedback to be sent by the Adviser/Mentor of the Intern (form will be sent separately to Adviser/Mentor during the course) to the Coordinator – Summer Research Internship.

Your cooperation is solicited in this process.

Regards

(Dr. Anil K. Roy)
Coordinator – Summer Research Internship 2005.
